## EXPERIENCE

### Personal Cybersecurity Website

#### Self-initiated Project

- 📅 2025 – Present    📍 www.jamyvetter.net
- Designed and developed a personal website focused on cybersecurity topics.
  - Built using the Hugo static site generator with a customized theme.
  - Version-controlled via GitHub and continuously deployed using Cloudflare Pages.

### Smart Greenhouse Project with Arduino

#### Grenoble INP Esisar

- 📅 June 2025
- Designed and developed an energy-autonomous smart greenhouse during first-year engineering studies, in collaboration with a teammate.
  - Implemented a control system using an Arduino to manage sensors (temperature, humidity, light) and actuators (fans, irrigation).
  - Powered the system via solar panels to ensure energy independence.
  - Drafted technical specifications and developed embedded software for automated climate regulation.

### Internship in an association for people with disabilities

#### Adapei 26

- 📅 2022
- Help with sports adapted to the disability.

### Internship in a luxury winter clothing boutique

#### Fusalp

- 📅 Feb 2020
- Learn how to run a store, how to behave as a salesperson and how to make contact with customers
  - Observation of numerous sales

## EDUCATION

### Integrated Prep student

#### Grenoble INP Esisar

📅 Sept 2024

### Baccalauréat général, Mathematics, Physics-Chemistry

#### Lycée privé Saint-Maurice NDC

📅 Sept 2019 – Jul 2022

## PERSONAL PROFILE

Engineering student in the integrated preparatory program at ESISAR (Grenoble INP – UGA), with a strong interest in networking technologies and cybersecurity. Currently developing technical skills in computer networks, programming (C, Python), and electronics (simulation, FPGA, microcontrollers). Already involved in several academic projects, I enjoy working in demanding technical environments where rigor and curiosity are key.

## CERTIFICATIONS

- 🌐 **TOEIC (2022) – Score : 915/990**  
Official certification demonstrating a B2 level in English comprehension and expression
- 🔒 **Cybersecurity Certification – Grenoble INP Esisar**  
Introduction to cybersecurity fundamentals, defense methods, and digital risk management

## STRENGTHS

- Problem Solver    Analytical Thinking
- Autonomous & Reliable
- Team Collaboration

- Cybersecurity Awareness    Linux
- Systems Architecture    Tech Curiosity

## LANGUAGES

- French    English    Spanish
